Personal Planning:

[Pur-suh-nl plan-ing]

verb – the act of making one or more legal documents that authorize your personal supporters to help you manage your affairs or make decisions on your behalf if you need assistance due to illness, injury or disability: *Carla is gathering information about personal planning because she is aging and concerned about maintaining her independence.*

Personal planning is different from estate planning in that personal planning is about making arrangements for while you are alive, whereas estate planning is about making arrangements for when you die.
